

Yields for SRA3

This is a guide to standard paper sizes and how Design & Print Services can impose them on a sheet of SRA3 paper. It helps us to save the amount of paper we use and helps you to maximise your budget.

Using our colour digital printing services is easy. Just provide us with PDF artwork set to the size that you want it printed, complete an order form including your department charge code if you're staff, or PCounter username if you're a student, and we'll do the rest.

If you need any advice or assistance please contact us any time, Monday to Friday, 9am to 5pm.
