Library

Strategic Plan 2010-2019

Mission

The Library exists to provide access to the information resources needed by students and staff in the formats they can use at the times and places they want to use them.

Strategic objectives

- To support learning and teaching and enhance the student experience
- To support research, including the REF
- To engage with the local community
- To ensure that appropriate services are delivered efficiently and cost-effectively

1. Support for Learning and Teaching

1.a Continue to provide information resources (books, journals, audiovisual items, databases, special collections) relevant to taught courses

1.b Where possible to provide resources in digital format

1.c Raise students’ awareness of other libraries that they could use to support their learning

1.d Continue to provide library induction and information skills training, by various means, integrating this where possible with coursework

1.e Continue to support language learning and teaching

1.f Continue to improve the building to provide varied study spaces and other facilities to support learning

2. Support for Research

2.a Provide better access to information resources, in conjunction with other libraries

2.b Acquire and catalogue special collections relevant to research

2.c Build partnerships with academic departments and cultural bodies in order to participate in research and resource enhancement projects
