

MIKE SMITH

MIKE SMITH STUDIO

A CSISP EVENT | SUMMER TERM 2005

Tuesday 24th May | 5.00–7.00pm

Ian Gulland Lecture Theatre, Goldsmiths College

The Mike Smith Studio (MSS) is a design and fabrication facility that has been uniquely instrumental in realizing important contemporary works of art since 1990. The design and engineering solutions at MSS have produced a series of remarkable creative and experimental exchanges. All projects at MSS require a symbiosis between the practical and the creative that has extended the parameters within which artists work. Mike Smith will be talking about MSS, and his collaboration with artists such as Mona Hatoum, Damien Hirst, Mark Wallinger, and Rachel Whiteread.
