Programme overview

By bringing together media practice and communications theory, this degree covers a broad spectrum of critical perspectives on the media, and introduces a range of contemporary media practices.

Why study BA Media & Communications at Goldsmiths?

You will study in one of the UK's and the world's top media and communications departments. You'll be taught by leading names in media, communications and cultural studies. We concentrate on high quality lectures and small group work, and all our teaching takes place on one purpose-built site.

On practice courses you'll be taught by industry professionals engaged in TV, film, journalism, radio, photography, scriptwriting, short fiction, illustration, interactive media and animation. You'll have access to industry-standard practice facilities, including TV/film, radio and photography studios, digital video and audio editing suites, and animation software and hardware. Our close links to the media industry bring you into regular contact with media professionals. You will have the opportunity to apply for an internship in the media as part of the course. We regularly host debates and talks by international figures in media and cultural research and the media industry; recent guests have included Danny Boyle, Gurinder Chadha and Noel Clark. You'll be taught alongside students from all over the world and with diverse cultural experiences that enrich the department and the learning experience. You'll develop skills that you can use throughout your career whether in the media industries or elsewhere. Our recent graduates are now working as television producers, news readers, editors, journalists etc... Others have gone into a whole range of careers such as research, teaching and law.

Programme entry requirements

A-level: BBB BTEC: DDM
IB: 33 Points, HL655
Access: 60 credits overall with 30 distinctions and distinctions/merits in related subject.
Aims of the programme

By bringing together media practice and communications theory, this programme explores a broad spectrum of critical perspectives on the media and introduces a range of contemporary media practices. It offers a solid basis of practical experience in media production, and an understanding of how the media function, drawing on a wide range of theoretical disciplines. We aim to provide an experience in which theory and practice elements can influence and enrich each other in the production of original work.

For us, an understanding of the mass media and the relationship of the individual to the media is crucial in developing an engaged and questioning member of society. Our teaching encourages you to develop a critical understanding of your own motivation and identity within a broader cultural and institutional framework. We aim to help you to express yourself creatively and self-critically in theoretical and practice work; to understand – from a variety of disciplinary positions – how the media work; and to help you to develop subject specific knowledge and skills and a range of transferable intellectual, organisational and communication skills which can be applied in a wide range of professional occupations, including, though not exclusively, the media.

What you will be expected to achieve

The programme’s subject-specific learning outcomes are devised by academic staff who are at the forefront of their field of study. However, you will also develop a wide range of transferable qualities and skills necessary for employment in a variety of contexts, not just in journalism. The Quality Assurance Agency describes these qualities & skills as effective communications skills, the exercise of initiative and personal responsibility, decision-making in complex and unpredictable situations, and the independent learning ability required for continuing professional development.

</table>
How you will learn

Knowledge and Understanding:
The acquisition of outcomes A1-8 is through weekly lectures and seminars so that core knowledge gained through reading and lectures may be reinforced through seminar discussion and debate. Guidance is given on appropriate preparatory and follow up reading and staff are available to provide tutorial support on a weekly basis. All modules require the research and writing of coursework so that your understanding can be progressed and feedback given prior to the completion of seen or unseen examinations or examined essays. The interdisciplinary concerns of the modules in all years of the degree mean that your understanding of the outcomes will be constantly advanced by your studies achieving greater depth in years 2 and 3.

Transferable Skills:
The acquisition of outcomes D1-6 is through small-group practice-based lectures, seminars and workshops and reinforced through the preparation and production of media projects. You have extensive contact with academic and support staff and feedback is provided throughout the practice learning process.

The acquisition of skills and attributes are achieved by your full participation in the structured learning activities and the completion of module and examined work that will involve considerable further independent study. You will receive feedback from tutors throughout the programme in seminars and written feedback will be given on submitted coursework. The acquisition of skills D9-12 are achieved through your participation in practice lectures, seminars and workshops and the completion of a series of media projects or portfolios. Tutorial support is constantly available to advise you on your progress in skill acquisition in both theoretical and practice-based studies.

How you will be assessed

Knowledge and Understanding:
Assessment of outcomes A1-8 is by a mixture of unseen examinations and examined essays in the first and second years of the degree. In year three, your knowledge and understanding is tested by examined essays and, where appropriate, a dissertation.

Transferable Skills:
The assessment of outcomes D1-3 is by the completion, within each practice module, of media projects or portfolios. Evidence of the extent of the achievement of outcomes D1-3 will also be sought in the Production Logs, completed by all students in group-based areas, and in the Production Essay, written by all students in their third year.

Outcomes D4-8 are primarily tested through written module and examined work and D9-12 through tutorial supervision and marking of media projects/portfolios. Progress towards the achievement of skill outcomes D13, and D16 will be demonstrated in both written theoretical and practice submissions. Outcomes D14 and D15 are not formally assessed except in the examination of certain areas of practice work. However, the development of effective interpersonal and other oral communications skills are encouraged by staff in all practice and theory seminars and feedback is given in oral and written form.

Marking criteria

<table>
<thead>
<tr>
<th>Mark</th>
<th>Descriptor</th>
<th>Specific Marking Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>80-100%</td>
<td>I: First</td>
<td>Awarded when a candidate satisfies the requirements for a distinction, but to an outstanding degree.</td>
</tr>
<tr>
<td></td>
<td>(Exceptional)</td>
<td></td>
</tr>
<tr>
<td>70-79%</td>
<td>I: First</td>
<td>It will demonstrate overall the very effective application of</td>
</tr>
<tr>
<td>Grade</td>
<td>Description</td>
<td>Criteria</td>
</tr>
<tr>
<td>------------</td>
<td>-------------------------------------------------------------------------------------------------</td>
<td>----------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>60-69%</td>
<td>(Excellent)</td>
<td>The essay will demonstrate overall the effective application of appropriate knowledge, understandings and skills specified in the module learning outcomes. It will show good evidence of extensive reading and awareness of different perspectives. Clearly structured with reading and evidential material directed towards answering the question. Using your own examples to develop your own arguments is often the difference between this category and the one below.</td>
</tr>
<tr>
<td>50-59%</td>
<td>IIIi: Lower Second (Good)</td>
<td>The essay will demonstrate an overall satisfactory application of appropriate knowledge, understandings and skills specified in the module learning outcomes. It will show a good understanding of the topic and the principal reading recommended. It may be descriptive or too generalized in parts, lacking analysis or argument or may try to make an argument without providing sufficient appropriate evidence to back it up. It may not focus on the question sufficiently to demonstrate a higher level of achievement of the appropriate module outcomes.</td>
</tr>
<tr>
<td>40-49%</td>
<td>III: Third (Pass)</td>
<td>The essay will demonstrate that the majority of the appropriate module learning outcomes are achieved to a satisfactory level. However, the essay will either too much description, or use a limited range of material, or may assert a position without sufficient supporting evidence to demonstrate a higher level of outcome. The work is not sufficiently organised around answering the question to achieve a higher mark.</td>
</tr>
<tr>
<td>25-39%</td>
<td>Fail</td>
<td>A mark in this range represents a significant overall failure of the work to achieve the appropriate standard. It shows no evidence of attention to technical competence, structure or achieving primary goals. It is deemed a valid attempt and not necessarily required to be re-sat.</td>
</tr>
<tr>
<td>10-24%</td>
<td>Bad fail</td>
<td>A mark in this range represents a significant overall failure to achieve the appropriate learning outcomes. Written work shows no evidence of an attempt to address the question. It shall not be deemed a valid attempt and not necessarily required to be re-sat.</td>
</tr>
<tr>
<td>0%</td>
<td>Non submission or plagiarised</td>
<td>This is a categorical mark for work representing either the failure to submit an assessment, or a mark assigned for a plagiarised assessment.</td>
</tr>
</tbody>
</table>
How the programme is structured

The programme is only available for full-time study over three years, in which you take modules to the value of 360 CATS. In year one, you take five theoretical modules that introduce you to the major fields of study. These are then further explored in a range of core and optional theory modules in year two. You are then able in year three to specialise in a number of different areas from the options offered by the Department. It is also possible for you to propose a topic for a dissertation.

Following an induction to media practice module at the start of the programme, in which you experience work in six different practice areas – animation, journalism, photography, scriptwriting with prose writing, radio and television – you chose two of these areas for further study. After the first term of your second year, you will then specialise in one of these practice areas for the latter half of the degree.

Academic support

Support for learning and wellbeing is provided in number of ways by departments and College
support services who work collaboratively to ensure students get the right help to reach their best potential both academically and personally.

Students are allocated a personal tutor and a Senior Tutor in each department has overall responsibility for student progress and welfare. Departments arrange regular communication to students in the form of mailings and meetings as well as regular progress reports and feedback on coursework and assignments. This is in addition to scheduled seminars, tutorials and lectures/workshops.

Personal tutors will invite students to meet in the first two weeks of a new term and regularly throughout the duration of a programme of study. These meetings aim to discuss progress on modules, discussion of the academic discipline and reports from previous years if available (for continuing students). This way progress, attendance, essay/coursework/assessment marks can be reviewed and an informed discussion can be about how to strengthen learning and success.

Students are sent information about learning resources in the Library and on the VLE so that they have access to programme handbooks, programme information and support related information and guidance. Timetables are sent in advance of the start of term so that students can begin to manage their preparation and planning.

Taught sessions and lectures provide overviews of coursework themes, which students are encouraged to complement with intensive reading for presentation and discussion with peers at seminars. Coursework essays build on lectures and seminars so students are encouraged to attend all taught sessions to build knowledge and their own understanding of their chosen discipline.

In depth feedback is provided for written assignments and essays via written feedback forms and formative feedback with module tutors/leads is provided to endure that students’ work is on the right track. Feedback comes in many forms and not only as a result of written comments on a marked essay. Students are given feedback on developing projects and practice as they attend workshops and placements.

A peer assisted learning (PAL) scheme is in place so that first year students have the opportunity to link with a second year student who can offer support and their experience on a range of academic related issues. This support is department based so students have a common understanding of subject based knowledge.

Students may be referred to specialist student services by department staff or they may access support services independently. Information about support services is clearly provided on the College Website and as new students join Goldsmiths through new starter information and induction/Welcome Week. Any support recommendations that are made are agreed with the student and communicated to the department so that adjustments to learning & teaching are able to be implemented at a department level and students can be reassured that arrangements are in place. Opportunities are provided for students to review their support arrangements should their circumstances change. The Inclusion & Learning Support and Wellbeing Teams maintain case loads of students and provide on-going support.

The Careers Service and the Academic Success Centre provide central support for skills enhancement and run the Gold Award Scheme and other co-curricular activities that can be accredited via the higher education achievement award (HEAR)
Links with employers, placement opportunities and career prospects

Approximately 60% of graduates were working in media related fields with 8% involved in further study. A large majority appear to be successful in finding work in their preferred fields with over 70% in our survey employed in media production, Public Relations, marketing and management and 15% in other fields. However, due to the use of short term contracts across the media industries it is still extremely difficult to be conclusive about long term media employment success. The programme should be realistically viewed as the starting point, of what can often be, a long and arduous journey to become established in the media industries. However, you will leave the programme with a very clear idea of your own strengths and weaknesses as a practitioner that is clearly fundamental to your decision making about your future. Each year, the programme produces work of distinction and normally the best practice work achieves exhibition in festivals and competitions.

The requirements of a Goldsmiths degree

Undergraduate degrees have a total value of 360 credits. They are composed of individual modules, each of which has its own credit value. Full-time students take modules to the value of 120 credits each year and part-time students not less than 45 credits and not more than 90 credits each year. Each full-time year corresponds to a level of the Framework for Higher Education Qualifications.

Year 1 = Level 4  
Year 2 = Level 5  
Year 3 = Level 6

Modules:  
Modules are defined as:  
“Optional” – which can be chosen from a group of modules “Compulsory” – which must be taken as part of the degree  
“Core” – which must be taken as part of the degree and passed with a mark of at least 40%.

Progression:  
Full-time students are required to have passed modules to a minimum of 90 credits before proceeding to the next year. Part-time students normally must pass new modules to a minimum value of 45 credits before proceeding to the next year.  
In addition, some programmes may specify particular modules which must be passed, irrespective of the minimum requirements, before proceeding to the next year.

Award of the degree:  
In order to graduate with a classified degree, students must successfully complete modules to the value of 360 credits. However, if a module which has not be defined as “core” has been failed with a mark of 35-39% and all three permitted attempts have been used, this module may be compensated (treated as if it has been passed) so long as the average mean mark for all 120 credits at that level is 45% or above. No more than 60 credits may be compensated this way across a programme and no more than 30 at any one level.

Classification:  
Final degree classification will be calculated on the basis of a student's best marks for modules equivalent to 90 credits at Level 4, 105 credits at level 5 and 105 credits at level 6, applying a relative weighting of 1:3:5 to modules at level 4, 5 and 6 respectively.

Degrees are awarded with the following classifications:  
First Class – 70%+  
Upper Second – 60-69%  
Lower Second – 50-59%
Third – 40-49%

Students who, following the application of compensation and having used all their permitted resit attempts, have passed modules to the value of 300-345 credits, at least 60 of which are at level 6 may be awarded a pass degree.

Intermediate Exit Points:
Some programmes incorporate intermediate exit points of Certificate of Higher Education and Diploma of Higher Education, which may be awarded on the successful completion of modules to the value of 120 credits at level 4 or 240 (120 of which at level 5) credits respectively. The awards are made without classification.

The above information is intended as a guide. For further information, please refer to the Regulations for Undergraduate Students, which may be found here: http://www.gold.ac.uk/governance/studentregulations/

Programme-specific rules and facts

N/A

How teaching quality will be monitored

Goldsmiths employs a number of methods to ensure and enhance the quality of learning and teaching on its programmes.

Programmes and modules must be formally approved against national standards and are monitored throughout the year in departmental staff/student forums and through the completion of module evaluation questionnaires. Every programme also has at least one External Examiner who produces an annual report which comments on the standards of awards and student achievement.

This output is considered with other relevant data in the process of Annual Programme Review, to which all programmes are subject, and which aims to identify both good practice and issues which require resolution.

Every six years all programmes within a department are also subject to a broader periodic review. This aims to ensure that they remain current, that the procedures to maintain the standards of the awards are working effectively and the quality of the learning opportunities and information provided to students and applicants is appropriate.

Detailed information on all of these procedures are published on the webpages of the Quality Office (http://www.gold.ac.uk/quality/).
