Psychology

Programme overview

From mainstream to underground, the BMus (Hons) Popular Music embraces popular music in its many forms: rock, pop, folk, urban, jazz, experimental and commercial. Its content and structure encourages students to rethink music study and practice through a challenging combination of theoretical and practical courses. It offers a core of subject areas but also considerable flexibility, and students are encouraged to construct a path of study that develops and explores the interrelationship between music as a creative and practical endeavour, and music as an intellectual study. Students develop awareness of diversity in music and of the diversity of values, critical stances and analytical methods in their historical and cultural contexts. The programme encompasses a wide range of repertoires of music, offering courses that reference various aspects of popular musics, jazz, film music, Western art and contemporary music, ‘world’ music, sound art and electronic music.

Programme entry requirements

The standard offer is BBB at GCE A-level including Music, or an equivalent combination of AS-and A-levels; OR an overall grade of DDM in BTEC National Diploma in Popular Music, Music and Performing Arts. We also accept a range of alternative qualifications. For further details please refer our website http://www.gold.ac.uk/ug/bmus-popular-music/

If students have completed the first year of a comparable degree at another university, or an appropriate HND, they can apply for direct entry into the second year, subject to confirmation of previous attainment of equivalent Level 4 learning outcomes.

Students should be able to demonstrate skills and experience in both practical musicianship and music creation. Although we consider each application on its individual merits, we favour students who demonstrate clear experience of and/or commitment to performance and music making.

Aims of the programme
The programme accords with Goldsmiths’ aims to pursue intellectual curiosity, work beyond the “boundaries of preconceptions” and provide “a unique and creative approach” to subjects. At the heart of the degree is the study of creative practice, with opportunities to develop core skills, whether it is performing in bands or writing/performing music for film, theatre or multimedia. Academically students are encouraged to ask questions on the effects that popular music has had on our cultures, identities and lives. In the final year students can choose to follow their own practical and academic interests, with the option of showcasing their own work in a venue outside of Goldsmiths. The programme is designed to support professional development, and enables graduates to leave Goldsmiths not only with a wealth of experience and transferable skills, but also a professional portfolio to present their work.

What you will be expected to achieve

By the end of the programme, students will be able to:

<table>
<thead>
<tr>
<th>Knowledge and Understanding</th>
<th>Taught by the following modules</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>A1</strong> understand the interrelationship of practice and theory</td>

[Goldsmiths University of London logo]
How you will learn

The programme is delivered through a combination of lectures, seminars, group and individual tutorials, workshops, and individual lessons. All modules make use of the College V.L.E. as a repository for essential module information, and all students receive training in music technology, including knowledge of music software. There are dedicated computer rooms for self-directed learning, and we have a large staff team with a very wide range of research interests (the details of which can be found at www.goldsmiths.ac.uk/music/staff). We also regularly bring in external specialists to support our modules, or as instrumental/vocal tutors.

Programme outcomes that emphasise knowledge and understanding are developed in lecture-seminar sessions, supported, where possible, by individual tutorials, and where relevant, lab/workshop sessions. Practical and subject-related skills are developed through class-based tasks, either individually or in groups, (including analytic, listening-based, or discursive exercises), or by setting up and reviewing follow-up tasks undertaken outside of class through workshops where students are given the opportunity to offer peer feedback. Cognitive and transferable skills are integral to the learning experiences across all elements of the programme.

The relative extent of a lecture, seminar or task-based component in any individual module or session depends on the learning outcomes and material at hand. Class discussion and debate, whether staff- or student-led, encourages collaborative engagement with questions, issues, problems and exercises that help develop the students’ individual learning. Independent learning requires close and rigorous engagement with primary and secondary sources, as directed by module materials and online resources, including instructional ‘off-the-shelf’ software modules and other online resources, musical scores, recordings, film, historical documents and a range of other materials. The relevant library resources are referenced to help develop research-based and ITC related skills.

The programme offers flexibility at levels 5 & 6 in order to offer learning opportunities across the broad range of theoretical and practical areas. These options are selected with the advice and agreement of the student’s personal tutor and the programme convener at various stages in the degree programme. In addition, each student’s learning development is supported and reviewed in tutorial meetings that occur across the academic year.

Learning and teaching is also supported by a wide variety of practical activities that pertain to various aspects of the programme, including the Goldsmiths Sinfonia, the Chamber Choir, the Contemporary Music Ensemble, The Collective, performances curated by the Electronic Music Studios, and the Department’s concert series, masterclasses, and guest lectures. Students are also invited to engage with events with the Graduate Forum, hosted by the Department’s various research centres and units.

How you will be assessed

Summative and formative assessment of the programme outcomes occurs across the Programme. Individual modules deploy the most effective and appropriate assessment method(s) according to the topic and learning outcomes.

The methods comprise:

1) a written document (e.g. a 3,000-word essay) that demonstrates an ability to apply reasoning to a set question, comparative or analytical task, conduct independent research and produce an academic argument that can be supported by evidence and examples, or to provide self-reflective commentary

2) a coursework portfolio that demonstrates an ability to undertake one or more practical or creative task(s)
in response to explicit criteria (e.g. a composition, a musical performance, a transcription) and write a short self-evaluation.

3) an unseen examination that demonstrates the ability to apply reasoning to set question(s), comparative or analytical task(s) and produce reasoned solutions and/or academic argument supported by evidence.

4) an oral presentation that demonstrates an ability to articulate and present coherent solutions, arguments and understandings relevant to tasks set, and respond to feedback in discussion with peers and tutors.

5) a practical presentation in the form of a recital or performance, either as solo or an in ensemble

The programme outcomes are achieved in their most extensive and comprehensive form in final year projects, either demonstrated through creative work in the Creative Research Project, research, critical and expository skills in the Research Essay, or in a developed performance through Advanced Performance.

Feedback is given through dedicated structured feedback forms for each module assignment, and through documented tutorials/discussions with the student.

Marking criteria

<td>-------------</td>
</tr>
<tr>
<td>60-69%</td>
<td>iii: Upper Second (Very good)</td>
<td>A mark in this range represents the overall achievement of module and programme learning outcomes to a very good level, above average in quality. Text-based assessment: Written work is characterized by lucid and analytical discussion, demonstrating a good understanding of relevant issues, with evidence of independent thinking, and making effective and selective use of module texts and other sources. There is very good evidence of relevant technical and analytical skills. Arguments are focused and secure, and conclusions well substantiated. Work is well articulated and presented to a very good standard. Creative and technical work: This demonstrates clear signs of coherence and individuality. There is a confident use of a wide range of relevant techniques, explored rigorously and with imagination. Work is informed by contemporary and relevant theoretical ideas. All materials and realisations are produced to a very good standard, in the form of music notation, studio production, performance or systems design, as relevant. Accompanying written work is cogent and evidences an understanding of relevant critical approaches. Performance: The performer demonstrates sympathy with the stylistic demands of the piece, and an understanding of the piece as a whole. A good level of security with respect to dexterity, flexible dynamics, secure intonation, timbral diversity and control, rhythmic accuracy and appropriate phrasing is evident throughout most of the performance. The music is performed in a relaxed and confident manner. Technical exercises are secure and fluent.</td>
</tr>
<tr>
<td>50-59%</td>
<td>iii: Lower Second (Good)</td>
<td>A mark in this range represents the overall achievement the appropriate learning outcomes to a good level. There is evidence of an adequate level of understanding of relevant tasks, concepts, methods, and context and of sufficient skill to tackle the problem at hand. Such work is likely to demonstrate a lower level of competence and less insight in analysis than upper second class work.</td>
</tr>
<tr>
<td>Score Range</td>

<td>-------</td>
<td>-------------</td>
</tr>
<tr>
<td>40-49%</td>
<td>III: Third Pass</td>
<td>A mark in this range represents the overall achievement the appropriate learning outcomes to a satisfactory level. Text-based assessment: This may represent a limited but competent attempt to answer a question, demonstrating a basic familiarity with module texts and/or issues, and adequate competence in technique, organisation and expression. Creative and technical work: This demonstrates a satisfactory understanding of techniques, with some evidence of imaginative application. All materials and realisations are produced to an acceptable standard. Accompanying written work shows some understanding of the work’s methods and aims. Performance: The voice or instrument is controlled satisfactorily, but inconsistently. There are technically secure passages that evidence attention to rhythmic accuracy, intonation and dynamics. There is some evidence of musical understanding. Technical exercises might have notable errors, but have elements of competence and fluency.</td>
</tr>
<tr>
<td>25-39%</td>
<td>Fail</td>
<td>Represents the overall achievement of the appropriate learning outcomes to an unsatisfactory level. Work shows some evidence of an attempt to address the question or task, but with inadequate detail, analysis or evidence of technique; there is insufficient evidence that the concerns of the module have been understood; and/or less than the minimum degree-level competence in expression and technical work.</td>
</tr>
<tr>
<td>Score</td>
<td>Grade</td>
<td>Description</td>
</tr>
<tr>
<td>-------</td>
<td>-----------</td>
<td>--------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>10-24%</td>
<td>Bad fail</td>
<td>Represents an overall failure to achieve the appropriate learning outcomes. The work is deficient in most respects, revealing insufficient grasp of material and poor organisation and an inability to identify and address the task required. Text-based assessment: The text entirely lacks structure and focus; there are major inconsistencies and mistakes in the usage of scholarly procedures and their presentation. Creative and technical work: This will demonstrate inadequate technical competence, imaginative thinking or conceptual coherency. Relevant materials will be inadequately produced. Performance: There is a significant lack of control of the voice or instrument, with little or no evidence of musical understanding.</td>
</tr>
<tr>
<td>1-9%</td>
<td>Very bad fail</td>
<td>A submission that does not even attempt to address the specified learning outcomes (shall be deemed a non-valid attempt and module must be re-sat).</td>
</tr>
<tr>
<td>0%</td>
<td>Non submission or plagiarised</td>
<td>A categorical mark representing either the failure to submit an assessment or a mark assigned for a plagiarised assessment</td>
</tr>
</tbody>
</table>

**How the programme is structured**

Year 1 modules cover diverse themes, genres and debates fundamental to an understanding of music today. Students think critically about music and its contexts, and acquire skills in performance, music theory, composition and music technology. In years 2 and 3, students devise their own programme of study building on these fundamentals, choosing from a large range of elective modules. The modules cover aspects of classical and contemporary music, popular music, ethnomusicology, sound art and electronic music and music for film. A high degree of specialism is possible across options that focus on academic study, creative work or musical performance.

Module lists in years 2 and 3 are indicative. Some modules may not be available in some years. Year 1 lays the foundation for all students in the compulsory modules.

In year 2 students select the mix of modules they wish to take. The modules are divided into two groups, A (historical/contextual/technical modules) and B (creative/practical modules): students take at least two modules from Group A, and remaining modules from Group A or B. Up to 30 credits can be taken in...
related study from another department (subject to availability). Some modules require students to have passed a previous module (pre-requisite) in Year 1, or to take the module as a pair with another previous in Year 2 (co-requisite).

Year 3
Students again select from two groups, C & D. Either one or two modules must be taken from Group C (all modules 30 credits), with the balance coming from Group D (all modules 15 credits). One module with a maximum value of 30 credits can be taken in related study from another department or University of London institution, where available.

**Academic support**

Support for learning and wellbeing is provided in number of ways by departments and College support services who work collaboratively to ensure students get the right help to reach their best potential both academically and personally.

Students are allocated a personal tutor and a Senior Tutor in each department who has overall responsibility progress and welfare. Departments arrange regular communication to students in the form of mailings and meetings as well as regular progress reports and feedback on coursework and assignments. This is in addition to scheduled seminars, tutorials and lectures/workshops.

Every student is assigned a personal tutor who will meet with their student twice a year either face-to-face, as part of a group and/or electronically, the first of which normally takes place within the first few weeks of the first term. Personal tutors are also available to students throughout the year of study. These meetings aim to discuss progress on modules, discussion of the academic discipline and reports from
previous years if available (for continuing students). This way progress, attendance, essay/coursework/assessment marks can be reviewed, and an informed discussion can be about how to strengthen learning and success.

Students are sent information about learning resources in the Library and on the VLE so that they have access to programme handbooks, programme information and support related information and guidance. Timetables are sent in advance of the start of term so that students can begin to manage their preparation and planning.

Taught sessions and lectures provide overviews of coursework themes, which students are encouraged to complement with intensive reading for presentation and discussion with peers at seminars. Coursework essays build on lectures and seminars, so students are encouraged to attend all taught sessions to build knowledge and their own understanding of their chosen discipline.

In depth feedback is provided for written assignments and essays via written feedback forms and formative feedback with module tutors/leads is provided to ensure that students' work is on the right track. Feedback comes in many forms and not only as a result of written comments on a marked essay. Students are given feedback on developing projects and practice as they attend workshops and placements.

Students may be referred to specialist student services by department staff or they may access support services independently. Information about support services is clearly provided on the College Website and for new students through new starter information and induction/Welcome Week. Any support recommendations that are made are agreed with the student and communicated to the department so that adjustments to learning and teaching are able to be implemented at a department level and students can be reassured that arrangements are in place. Opportunities are provided for students to review their support arrangements should their circumstances change. The Inclusion and Learning Support and Wellbeing Teams maintain case loads of students and provide on-going support.

The Careers Service provides central support for skills enhancement, running the Gold Award Scheme and other co-curricular activities that are accredited via the higher education achievement report (HEAR).

The Academic Skills Centre works with academic departments offering bespoke academic literacy sessions. It also provides a programme of academic skills workshops and one-to-one provision throughout the year, which students can access directly at gold.ac.uk/asc/.

Links with employers, placement opportunities and career prospects

Students have the opportunity to develop and maintain a personal development plan, run by the Goldsmiths Gold Award scheme, during their period of study. This helps them record aspirations, plans and goals, record achievements, and enables progress to be monitored, in order to help achieve individual aims. The Senior Tutor is available to discuss the Gold Award scheme with students, and the Department advise about how best to approach this task.

The degree is designed to provide the necessary knowledge, understanding and skills for a wide range of careers in fields related to music: teaching, performing, creative work in the media, arts administration, publishing and retailing, record companies and production, community musicianship, librarianship and technical work in radio or television.

The programme provides many opportunities for students to develop and demonstrate the wide range of transferable skills that employers are seeking.

The requirements of a Goldsmiths degree
Undergraduate degrees have a total value of 360 credits. They are composed of individual modules, each of which has its own credit value. Full-time students take modules to the value of 120 credits each year and part-time students not less than 45 credits and not more than 90 credits each year. Each full-time year corresponds to a level of the Framework for Higher Education Qualifications.

Year 1 = Level 4
Year 2 = Level 5
Year 3 = Level 6

Modules:
Modules are defined as:
“Optional” – which can be chosen from a group of modules
“Compulsory” – which must be taken as part of the degree
“Core” – which must be taken as part of the degree and passed with a mark of at least 40%.

Progression:
Full-time students are required to have passed modules to a minimum of 90 credits before proceeding to the next year. Part-time students normally must pass new modules to a minimum value of 45 credits before proceeding to the next year.
In addition, some programmes may specify particular modules which must be passed, irrespective of the minimum requirements, before proceeding to the next year.

Award of the degree:
In order to graduate with a classified degree, students must successfully complete modules to the value of 360 credits. However if a module which has not be defined as “core” has been failed with a mark of 35-39% and all three permitted attempts have been used, this module may be compensated (treated as if it has been passed) so long as the average mean mark for all 120 credits at that level is 45% or above. No more than 60 credits may be compensated this way across a programme and no more than 30 at any one level.

Classification:
Final degree classification will be calculated on the basis of a student's best marks for modules equivalent to 90 credits at Level 4, 105 credits at level 5 and 105 credits at level 6, applying a relative weighting of 1:3:5 to modules at level 4, 5 and 6 respectively.

Degrees are awarded with the following classifications:
First Class – 70%+
Upper Second – 60-69%
Lower Second – 50-59%
Third – 40-49%

Students who, following the application of compensation and having used all their permitted resit attempts, have passed modules to the value of 300-345 credits, at least 60 of which are at level 6 may be awarded a pass degree.

Intermediate Exit Points:
Some programmes incorporate intermediate exit points of Certificate of Higher Education and Diploma of Higher Education, which may be awarded on the successful completion of modules to the value of 120 credits at level 4 or 240 (120 of which at level 5) credits respectively. The awards are made without classification.

The above information is intended as a guide. For further information, please refer to the Regulations for
Programme-specific rules and facts

Programme costs

General Costs

In addition to your tuition fees, you will be responsible for meeting standard costs associated with your study. Find out more information here: https://www.gold.ac.uk/programme-costs

How teaching quality will be monitored

Goldsmiths employs a number of methods to ensure and enhance the quality of learning and teaching on its programmes. Programmes and modules must be formally approved against national standards and are monitored throughout the year in departmental staff/student forums and through the completion of module evaluation questionnaires. Every programme also has at least one External Examiner who produces an annual report which comments on the standards of awards and student achievement. This output is considered with other relevant data in the process of Annual Programme Review, to which all programmes are subject, and which aims to identify both good practice and issues which require resolution. Every six years all programmes within a department are also subject to a broader periodic review. This aims to ensure that they remain current, that the procedures to maintain the standards of the awards are working effectively and the quality of the learning opportunities and information provided to students and applicants is appropriate.

Detailed information on all of these procedures are published on the webpages of the Quality Office (http://www.gold.ac.uk/quality/).
